PERSONAL EXPERIENCE

In my work with a faith-based recovery program, I led several women's mental health groups, trained team members, and facilitated numerous Step Studies. The program addresses both addiction and mental health challenges, focusing on achieving long-term recovery by identifying and addressing the root causes of struggles to prevent relapse. This cause is deeply meaningful to me and aligns with my passion for supporting others on their healing journeys.

Additionally, my volunteer experience on a worship tech team involved managing lyrics and graphic displays for both in-person and online services. Through this role, I gained proficiency in using Propresenter and display devices like projectors, ensuring smooth, impactful presentations during weekly services.
